**MAGUP**

Developed and designed in Sweden

THE MAGNETIC SIGNAGE REVOLUTION

# MAKE YOUR SIGNS MAGNETIC

Magup makes it possible to easily change and relocate signs in your store without skylifts or ladders. Use your most hidden value, the air, to expose your message.

## MAGUP

Now you don't need these anymore!

STORE WITH SUSPENDED CEILINGS

# YOU CAN CHANGE IT

Magup can be attached to any suspended ceiling. With the patented self-locking adjusting system you can adjust your sign or product in order to hang it exactly where you want it without the use of any tools.

The assembling device is magnetic and can be secured anywhere on a steel surface, without damage profiles or ceiling panels.

The installation is done from the floor, without ladders, which reduce the risk of injuries from dangerous falls. For very high altitudes, an assembly shaft that extends up to eight meters can be used.

STORE WITH OPEN CEILING CONSTRUCTION

# EXPAND YOUR EXPOSING AREA

With Magup you can easily assemble your signage up to eight meters from the floor and build a structure that makes you 100% flexible for all your future signage.

## LIGHTNING TRACKS

# LET IT BE LIGHT AND EASY

Magup Light accessories makes it possible to easily use your spotlight rails as a fastening point for your signage. You can locate your sign 360° from the rail and optimize your message to the flow of customers.

BANNER

# BUILD A WALL OF CREATIVITY

MAGUP Banner makes it possible for you to take your creativity to a new level. You can change the message of an entire wall within a few seconds. With a Hang Up, instead of a Roll Up, you save plenty of floor space.

COWS AND OTHER FLYING ANIMALS

# NOTHING IS IMPOSSIBLE

Use your most hidden value - the air – to expose your message. We can help you to create a complete flexible suspension system with exceptional cost efficiency.

THE MAGUP STORE

# THE COMPLETE SUSPENSION SYSTEM
